This highly-regarded scholarship is in recognition of Crystal's completion of Dr. Pick's Summer Student Residency in Periodontics program and consistent commitment to becoming a dentist. This is the first annual scholarship awarded by Dr. Pick, CEO of Progressive Periodontics.

"As a firm believer in education, I wanted to offer Crystal, and other pre-dental and dental students, an opportunity to spend a summer with me learning periodontics and dental implants in my private practice. Crystal demonstrated superior knowledge and skills and I am pleased to present her with our first annual science scholarship."

"Dr. Pick is an amazing mentor and what I learned from him during this program is invaluable to my studies and future career in dentistry. I am honored to receive this recognition from Dr. Pick and his practice, Progressive Periodontics."

Dr. Pick has been treating patients for over 30 years and believes in delivering the highest quality periodontal and dental implant care to his patients through state-of-the-art techniques, hi-tech equipment, team planning, education, and highly specialized and trained staff. A popular lecturer, Dr. Pick presents programs both nationally and internationally, on periodontics and implant dentistry, and practice management / motivation. He is an official spokesperson for the American Dental Association. To learn more about Dr. Pick and Progressive Periodontics please call (630) 898-5575 or visit www.progressiveperio.com.
